Falcon Force-Flo Swivel Hose Ends

Made in U.S.A!

Falcon Performance Force-Flo swivel hose ends are constructed from lightweight 6061 alloy aluminum and designed for smooth flow, easy assembly, and longer life. All elbow ends are built from one-piece billet tube construction; avoiding leakable braze joints. VITON o-ring seal allows 360° rotation, and 37° AN flare assures leakproof sealing surface eliminating need for taping. Compatible with all AN adapter fittings. Available in Red/Blue Brite Dip Anodized finish. All *Force-Flo* fittings are U.S.A. MADE!

Falcon Force-Lock Full Swivel Hose Ends

Avoid twisting and kinking your lines at installation with our full swivel *Force-Lock* hose ends. *Force-Lock* fittings are lightweight, economical, and assemble fast for the trouble free performance you need. Also, *Force-Lock* fittings are great for marine use or in any environment where corrosion is problematic. *Force-Lock* is compatible with any 37° AN flare adapters and must be used with *Force-Lock* rubber hose. Available in traditional red/blue anodized finish. All *Force-Lock* fittings are U.S.A. MADE!

Falcon Performance Dual Inlet Carburetor Line Kits

Made
in
U.S.A!

Falcon Performance dual inlet carburetor line kits are fully assembled and ready for installation, using either our Force-Flo or Force-Lite hose. Each kit comes with our newly designed adapter fittings made for faster installation, and with our new adapters, the wrench goes on once and turn until the adapter is locked in. Each kit comes with a 1/8" port for optional gauge installation (gauges sold separately.) Crush washers are included in each kit and available in three different color combinations.

Carburetor Inlet Adapters

Falcon Force-Flo In-Line Fuel Filters

Falcon Performance Force-Flo RACE and PRO RACE in-line fuel filters protect your performance fuel system. These filter assemblies are designed for the most demanding race applications and machined from durable 6061 Billet Aluminum. RACE series filters are available in blue, red, or black anodize, and PRO RACE series are available in blue anodize.

RACE Series filters feature:

- Slim 1-1/4" OD for easy mounting
- VITON o-ring sealed end-cap for easy access
- Cleanable 40-micron wire mesh
- Bi-directional filtering
- 95 Gallons/Hour @ 7 PSI

PRO RACE Series filters feature:

- VITON o-ring sealed end-cap for easy filter access
- 1-3/4" Filter OD
- Available with a 10-micron cellulose or a 100-micron stainless pleated element
- 150 Gallons/Hour

Falcon Hydra-Force Hose Ends for Brake & Power Steering

Made
in
U.S.A!

Hydra-Force hose ends are the perfect choice for brake line, power steering, and gas shock usage. Fittings are available in AN-3 and AN-4 hose sizes and various end options. Choose from straight, elbowed, or banjo ends to complete your custom installation. All Hydra-Force fittings are machined from high quality steel to handle any high pressure application and zinc plated for maximum corrosion resistance. Designed for use with Hydra-Force stainless braided Teflon hose. All Hydra-Force fittings are U.S.A. MADE!

Falcon Hydra-Force Stainless Braided Teflon Hose

Our Hydra-Force hose has a corrosion resistant Teflon inner tube reinforced with a 308 stainless steel outer braid delivering dependable performance for brake lines, gas shocks, and power steering hoses. Hydra-Force smooth bore hose operates from -65°F to 450°F. The stainless braid protects critical fluids from heat, abrasion, and line expansion to achieve superior performance.

Hydra-Force Stainless Steel Braided Teflon Hose

Falcon Stainless Steel Brake Line Kits

Our Hydra-Force stainless steel brake line kits have D.O.T. conforming Street LEGAL brake lines that will improve your 60-to-0 performance braking needs. Hoses are constructed from our Hydra-Force fittings and smooth bore Teflon hose reinforced with a 308 stainless steel braided cover, allowing for a firmer and faster brake pedal response.

Falcon Force-Flo Stainless Steel Braided Hose

Falcon Performance Force-Flo stainless steel braided racing hose is a durable CPE synthetic rubber tube bonded with a woven nylon braid and secured by a 308 Stainless Steel outer braid. Force-Flo racing hose resists extreme heat, abrasion, and corrosion; offering superior flexibility with maximum vacuum service. Operating temperature is -40° F to +350° F, and Force-Flo delivers hydrocarbon and alcohol based fuels, motor oils and coolant. Superior quality construction provides excellent flexibility and bending.

Force-Flo Stainless Steel Braided Racing Hose

AN Size	ID	OD	MAX PSI	MIN Bend	3'	10'	20'
-4	.220	.440	1500	2.0" R	20403	20410	20420

-12	.690	.940	1000	4.5" R	21203	21210	21220

Falcon Force-Lite Nylon Braided Hose

Force-Lite black nylon braided hose is made to the same high quality standards as our Force-Flo hose. Our Force-Lite hose uses an outer braid of lightweight, oil resistant, black nylon fiber and will help prevent cuts or scrapes when assembling with our Force-Flo hose ends. As an added bonus, Force-Lite hose can provide up to a 40% weight savings over most stainless braided hoses. Operating temperatures are -40°F to 302°F, maximum pressure rating is 350 PSI on all sizes, and can be used with fuel (including diesel), lubricating oils, and antifreeze.

Force-Lite Black Nylon Braided Racing Hose

-10	.560	.790	4.0" R	151003	151010	151020

Falcon Force-Lock Blue CPE Rubber Racing Hose

Force-Lock hose is designed for reduced weight and increased flexibility and features an elastomer inner tube bonded with a reinforcing textile braid covered with a high temperature blue synthetic rubber cover. The hose cover has an embossed layline to assist with installation. Force-Lock hose is compatible with a wide range of oils, fuels, and coolants. Force-Lock hose can operate in temperatures up to 300°F and a maximum pressure of 250 PSI for all sizes. Force-Lock hose is designed for use with Force-Lock fittings and all 37° AN flare adapters.

*****NOT TO BE USED WITH BRAKE OR POWER STEERING FLUIDS!*****
